Dear Sir/Madam

CROMBIE LANE, MELBOURNE - Streetscape improvement works

The City of Melbourne is proposing works to improve the environment in Crombie Lane as part of the wider Connecting Laneways project. We welcome your feedback on the enclosed concept plan.

The City of Melbourne is upgrading many of its streets as part of the Streetscapes program, which aims to enhance our streets and laneways through road and footpath works, landscaping and other improvements.

The proposal

The Connecting Laneways project aims to strengthen the existing pedestrian link between Flagstaff Station and Bourke Street. The proposed changes in Crombie Lane include:

- New 'threshold' paving treatment at both ends of the lane to signify changed traffic conditions (pedestrian priority), including:
 - New sawn bluestone for a section of road surface at each end of the lane
 - Replacing existing asphalt with new sawn bluestone paving for a section of footpath along Lonsdale Street (southern side only) and Little Bourke Street (northern and southern sides), close to their intersections with Crombie Lane
- Upgrading the existing asphalt roadway surface
- New buffer kerbing along both sides of the southern half of the lane
- Retention of the existing loading zone on the eastern side of the lane.

Over the coming months, you will also notice new signage designating Crombie Lane as a 'Shared Zone' where the speed of vehicles is limited to 10km/h and pedestrians have priority over vehicles. This is part of a wider program to improve Melbourne's walking network by enhancing pedestrian safety in well-used laneways while still retaining access for vehicles.

The cost and timing

The \$400,000 works in Crombie Lane are planned to commence in February 2015 and will take approximately 12 weeks to complete. Closer to the start of construction, you will receive information confirming the start date and timing of the works.

Have your say

A **feedback form** is enclosed to help you to provide comments about the proposal or you can **email** your comments to streetscapes@melbourne.vic.gov.au.

To provide **feedback online** visit participate.melbourne.vic.gov.au/streetscapes You can also view documentation such as plans, letters and construction timetables for this and other projects which may affect you. You can also check the 'Project updates' section for the latest news, including any changes to the timing of construction works.

All comments must be received no later than Friday 10 October 2014.

We look forward to your involvement and support in helping us enhance the pedestrian environment in Brights Place. For more information, please call the Engineering Services Branch on 9658 8711 or email streetscapes@melbourne.vic.gov.au

Yours sincerely

OVERALL SITE AND PROJECT BRIEF

The City of Melbourne has identified an opportunity to improve the laneways of Brights Place, Healeys Lane and Crombie Lane in Melbourne as part of the wider connecting laneways project.

The improvements will strengthen an existing link for pedestrians between Flagstaff Station and Bourke Street and also includes the Gresham Street upgrade (private developer funded) and the Lonsdale Street signalised pedestrian crossing project (funded from Council's 2013-14 capital works budget).

Through this project we will consider the following:

- Building and business requirements e.g. building access and future development plans for private land.
- Road safety objectives and actions to improve pedestrian access, create a natural link for pedestrians between Flagstaff Station and Bourke Street and encourage walking as a method of transport.
- Laneway type- e.g. thoroughfare or food destination.

Brights Place

Healeys Lane

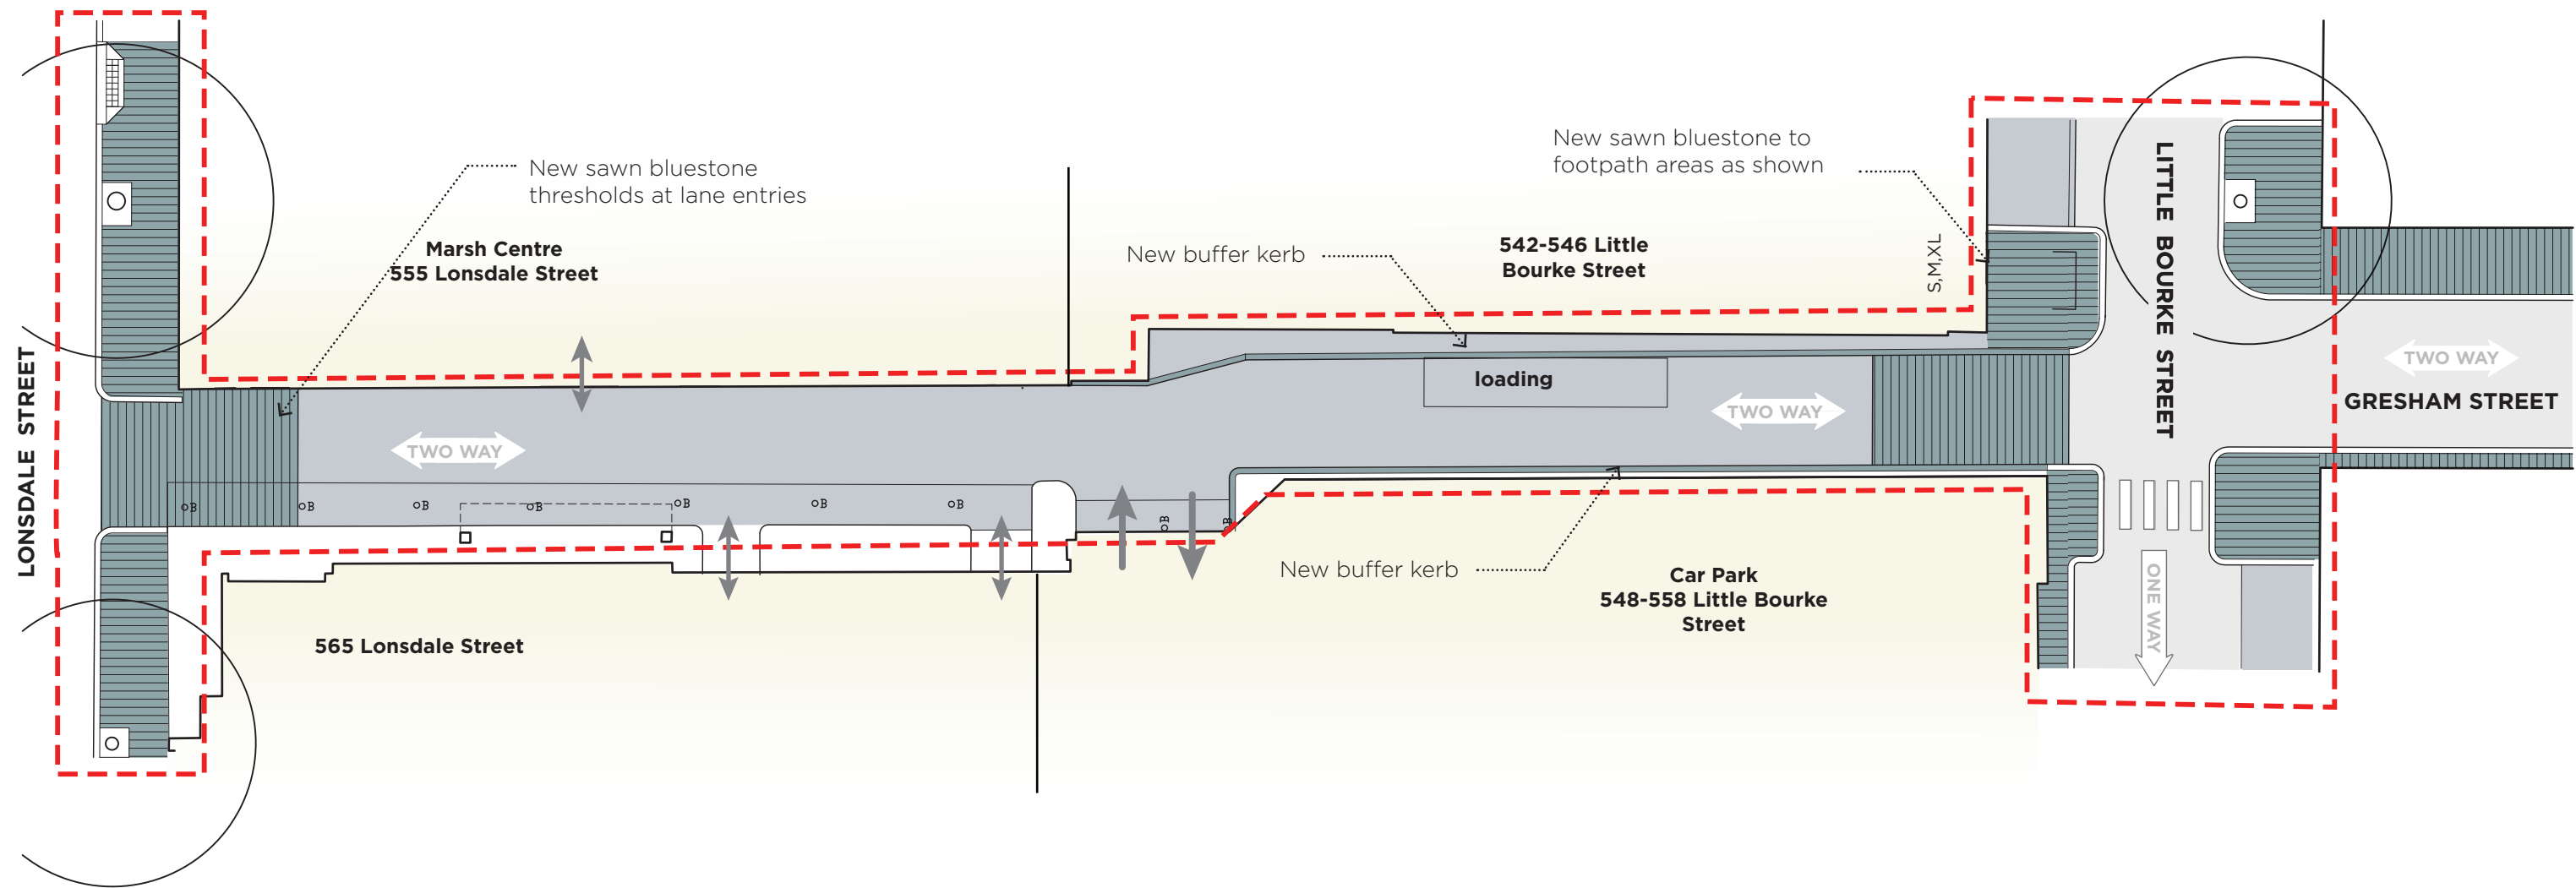

Crombie Lane

Gresham Street.
Private developer funded, construction underway

CROMBIE LANE / DRAFT DESIGN FOR CONSULTATION

Shared traffic lane
(Pedestrians, cyclists and vehicles share the carriageway)

LEGEND

- - - Extent of proposed works
- [Solid grey box] New asphalt paving
- [Blue-hatched box] New sawn bluestone paving
- [Dark blue line] New bluestone kerb
- [Yellow box] Private buildings
