Notice of streetscape improvement works and temporary changes to parking – Stage 1 (north side)

The City of Melbourne is committed to improving community infrastructure and amenity to make Melbourne a more attractive place to live, work, shop and visit. As part of this commitment the City of Melbourne has engaged Citywide to complete the following construction works.

Location of works: Little Collins Street, north side, between Spencer St and King streets, Melbourne.

Location of parking changes: Little Collins Street, north side, between Spencer St and King streets, Melbourne.

Project: This project involves major streetscape works. Works will include realigning new kerb and channel, bluestone paving construction, traffic signal modification, public lighting works, construction of new tree plots, crossover reconstruction and resurfacing the roadway.

Works will commence on the north side of Little Collins St between Spencer St and King St. We anticipate works on the north side will take five weeks to complete, followed by the second stage of works on the south side. A separate letter will be provided for works on the south side. Some preliminary works may be required to be done simultaneously on both sides of the street.

If you own a vehicle, motorcycle or bicycle, please do not park on the north side of the road or footpath for the duration of works. Individual property owners/occupiers will also be notified of any crossover works in front of their properties.

Construction period: Start date: Monday 7 July (weather permitting).

Times: Works on the north side of Little Collins St between Spencer St and King St will be completed between 7am and 4pm Monday to Friday.

Duration: We anticipate that the overall works will be completed in 12 weeks (weather permitting).

To enable these construction works to proceed safely and efficiently there will be a need for temporary on-street parking changes. **Please refer to parking signs during the construction period to avoid a parking fine.**

We apologise in advance for any disruption caused during the period of these works.
